

HEERF II Awards

Between March 19, 2021 and June 29, 2021, OSUIT disbursed \$360,539 to 1960 students enrolled at the institution. This is the first of three disbursements for HEERF II funds. There is a planned second disbursement in the summer and a third in the fall. No subsequent disbursement is dependent on a student having received a prior disbursement.

All students enrolled the time of the disbursement were eligible as long as we could determine that they were either, U.S. citizens or otherwise eligible non-citizens. International students, undocumented students, and students about whom no determination could be made, were not awarded. For the upcoming summer and fall disbursements, all students will be eligible based on revisions made in the American Rescue Act.

Students who had a balance owed to OSUIT were emailed and given the opportunity to select to receive an award that could be credited to their account. They had one week to make that choice. If they did not choose at all, they received funds that could only be refunded directly to them. The choice was logged from the responses in the student portal. The award amounts were the same, whether or not they elected a credit to their account balances.

All students received \$100 minimum awards. Those students who also received a Pell payment received an additional \$200 for a total of \$300. Any student, who receives a Pell payment during the spring or summer, but after receiving a \$100 payment, received an additional \$200 payment.

The payments are broken down in the table below.
