Oklahoma State University Institute of Technology Institutional Fact Book

The information contained in the Institutional Fact Book is collected from several Oklahoma State University Institute of Technology (OSUIT) offices. The enrollment data are based on the preliminary data stored after the last day to drop courses with no grade record which is traditionally the end of the second week of classes. The retention, graduation rates, and degrees awarded information is based on end-of-term data. The faculty information is provided by the Human Resources Office, the financial information is provided by the Accounting department, and the library holdings information is provided by the OSUIT Library.

As you know, COVID 19 disrupted almost every part of life. Some of our numbers reflect that disruption. Please keep in mind that decisions and changes had to be made while keeping the health and safety of our students in mind. Most classes for fall 2020 were changed to some type of online format either completely online, hybrid, or blended. Some classes and labs were held in person while maintaining social distancing and wearing masks.

Please note that, to the extent possible, the data presented on the following pages represent snapshots taken at the same time of the academic year. In some instances, however, variations in reporting cycles have limited our ability to do so. For this reason, the reader who attempts to cross-reference certain data tables may find discrepancies which may not be due to inaccuracies in the data.

Additional copies may be printed or downloaded from the OSUIT Institutional Research website (osuit.edu/research/).

Financial Facts

The financial information reported here includes the planned sources and uses of funds for the twelve months ending June 30, 2021.

Revenue \$52,445,873

State appropriations are projected to be less than they were last fiscal year and are approximately the same as they were in fiscal year 1991, thirty years ago. The onset of the global pandemic has made predicting revenue for this year less clear. Fewer students are anticipated to live on campus which will affect the self-supporting auxiliary operations. In the higher education community, student enrollment is anticipated to shift more towards on line learning for the current fiscal year. Since most of the university's programs require some hands on learning, increases in pandemic infections may affect enrollment.

The budget is comprised primarily of the Educational and General budget. This portion of the expenditures are for the educational mission of the university. The categories of educational expenditures include instruction and academic, student and institutional support. Auxiliary operations are another major portion of the budget. Auxiliary operations provide housing, food services, bookstore and other activities for students. Student financial aid and sponsored programs (grants) complete the planned expenditures.

Payroll is the largest component of the budget. The university's payroll and associated benefits are estimated to be \$24,878,388 for the fiscal year that ends June 30, 2021. This is an increase from the prior fiscal year. The remaining planned expenditures are supplies, utilities, student financial aid and maintenance of the facilities.
