## Oklahoma State University Institute of Technology Institutional Fact Book

The information contained in the Institutional Fact Book is collected from several Oklahoma State University Institute of Technology (OSUIT) offices. The enrollment data are based on the preliminary data stored after the last day to drop courses with no grade record which is traditionally the end of the second week of classes. The retention, graduation rates, and degrees awarded information is based on end-of-term data. The faculty information is provided by the Human Resources Office, the financial information is provided by the Accounting Department, and the library holdings information is provided by the OSUIT Library.

Please note that, to the extent possible, the data presented on the following pages represent snapshots taken at the same time of the academic year. In some instances, however, variations in reporting cycles have limited our ability to do so. For this reason, the reader who attempts to cross-reference certain data tables may find discrepancies which may not be due to inaccuracies in the data.

Additional copies may be printed or downloaded from the OSUIT Institutional Research website ([osuit.edu/research/factbook](https://osuit.edu/research/factbook)).

## Financial Facts

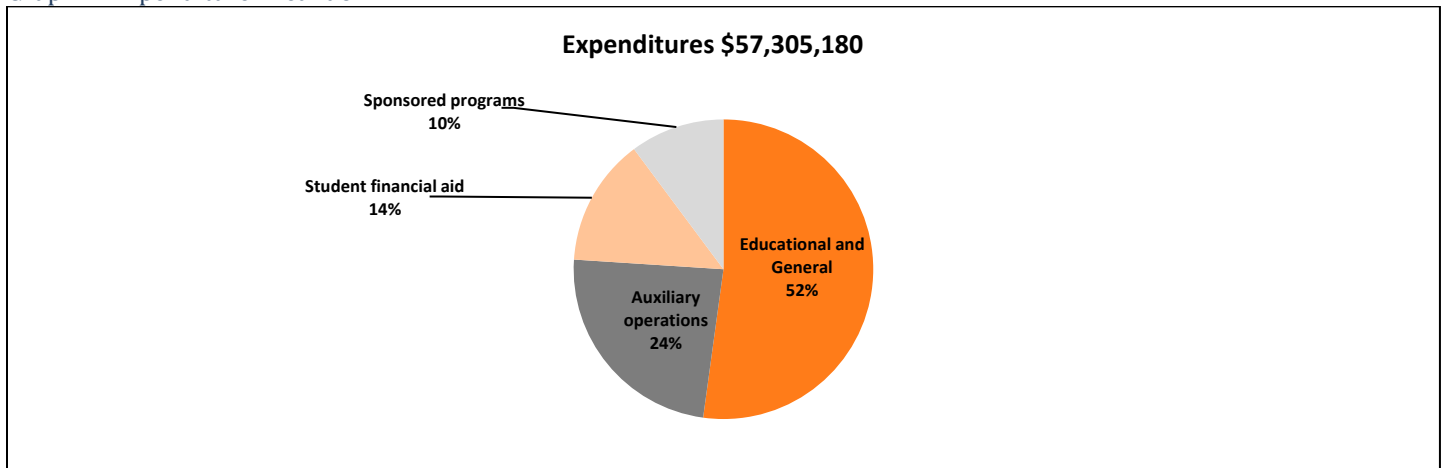

The financial information reported here includes the planned sources and uses of funds for the twelve months ending June 30, 2023.

Graph 1: Revenue Breakdown

State appropriations are projected to be slightly more than they were last fiscal year and are approximately the same as they were in fiscal year 1997, almost thirty years ago. Most of the university’s programs require hands on learning, so increases in pandemic infections may affect enrollment. Tuition and fees have surpassed state appropriations to become the largest source of revenue for the university.

Graph 2: Expenditure Breakdown

The budget is comprised primarily of the Educational and General budget. This portion of the expenditures are for the educational mission of the university. The categories of educational and general expenditures include instruction and academic support as well as student and institutional support and the operation and maintenance of buildings and grounds. Auxiliary operations are another major portion of the budget. Auxiliary operations provide housing, food services, bookstore, and other activities for students. Student financial aid and sponsored programs (grants) complete the planned expenditures.

Payroll is the largest component of the budget. The university’s payroll and associated benefits are estimated to be \$23,065,150 for the fiscal year that ends June 30, 2023. This is about the same as it was in the prior fiscal year. The remaining planned expenditures are supplies, utilities, student financial aid, maintenance of facilities, and grant related expenditures.
