Oklahoma State University Institute of Technology Institutional Fact Book

The information contained in the Institutional Fact Book is collected from several Oklahoma State University Institute of Technology (OSUIT) offices. The enrollment data are based on the preliminary data stored after the last day to drop courses with no grade record which is traditionally the end of the second week of classes. The retention, graduation rates, and degrees awarded information is based on end-of-term data. The faculty information is provided by the Human Resources Office, the financial information is provided by the Accounting department, and the library holdings information is provided by the OSUIT Library.

OSUIT has shown a decrease in enrollment for several fall terms. Beginning with fall 2014, the decreases were mainly caused by the College of the Muscogee Nation becoming more self-sufficient with new HLC accreditation and with the Oklahoma State Regents for Higher Education restructuring of the cooperative alliance program with the Oklahoma Technology Centers.

Please note that, to the extent possible, the data presented on the following pages represent snapshots taken at the same time of the academic year. In some instances, however, variations in reporting cycles have limited our ability to do so. For this reason, the reader who attempts to cross-reference certain data tables may find discrepancies which may not be due to inaccuracies in the data.

Additional copies may be printed or downloaded from the OSUIT Institutional Research website (osuit.edu/research/).

Degree-Seeking Students

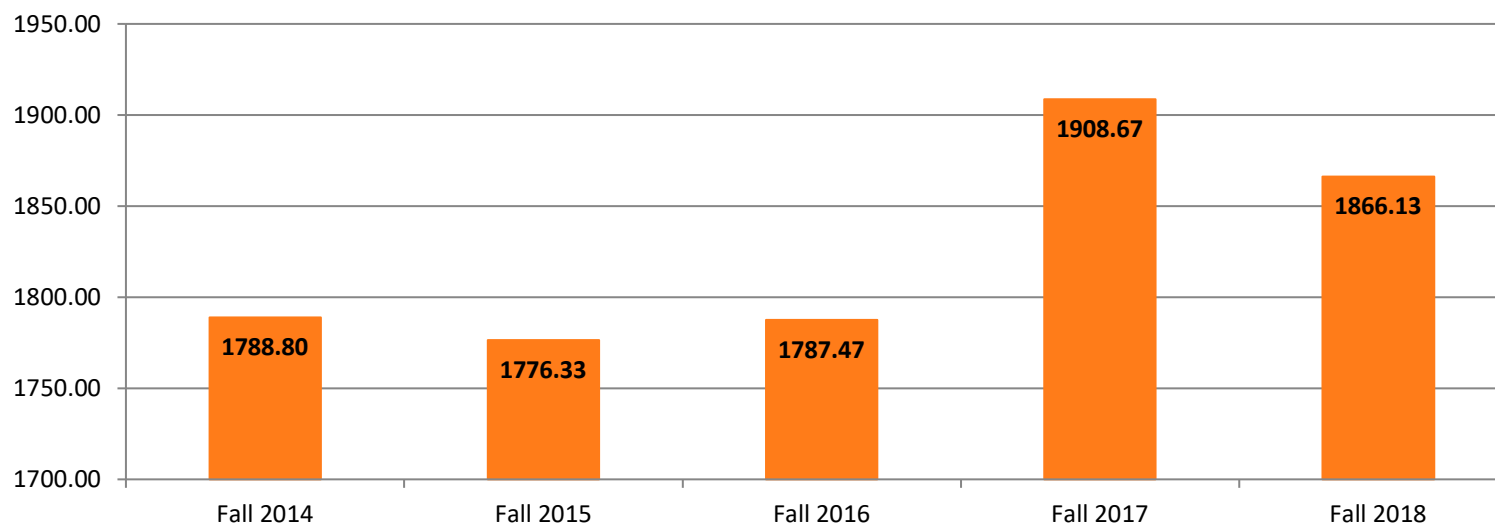

Decrease Fall 2014 due to College of the Muscogee Nation becoming more self-sufficient with new accreditation, some programs are redistributing freshman admissions/enrollment, and uncertainty involving cooperative alliance credit.

First-time, Degree-Seeking Freshmen

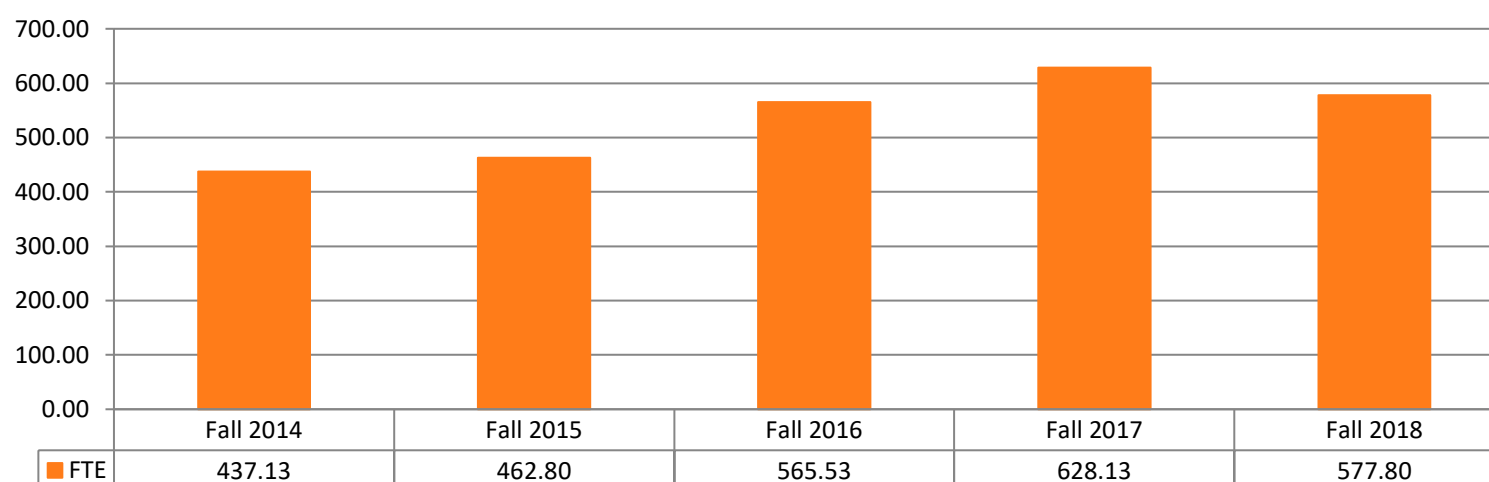

Decrease Fall 2014 due to College of the Muscogee Nation becoming more self-sufficient with new accreditation, some programs are redistributing freshman admissions/enrollment, and uncertainty involving cooperative alliance credit.

Financial Facts

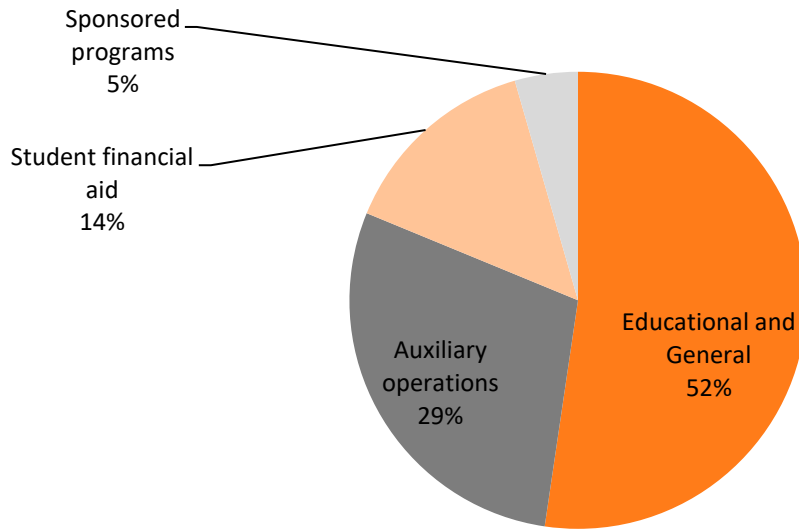

The financial information reported here includes the planned sources and uses of funds for the twelve months ending June 30, 2019.

Revenue \$53,787,255

State appropriations are the same as in the prior year and are approximately the same as 1995. Revenue from tuition and fees is expected to increase slightly and is expected to be a greater percentage of revenue than state appropriations.

Expenditures \$53,787,255

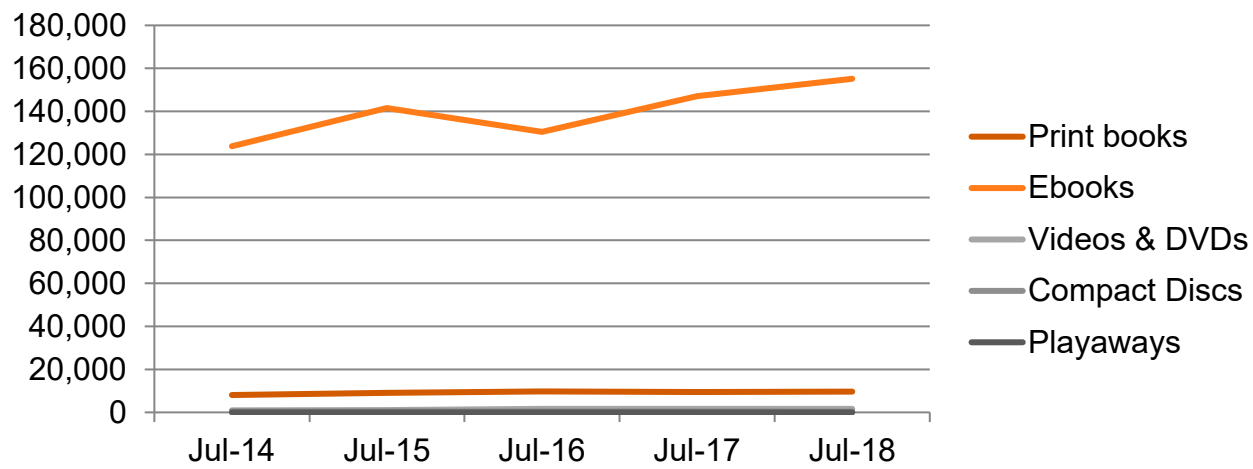

The budget is comprised primarily of the Educational and General budget for instructional expenditures. Auxiliary operations provide housing, food services, bookstore and other activities for students. Student financial aid and sponsored programs (grants) complete the planned expenditures.

Payroll is the largest component of the budget. The university's payroll and associated benefits are estimated to be \$23,346,500 for the fiscal year that ends June 30, 2019. This is a reduction from the prior fiscal year. The remaining expenditures are supplies, utilities, student financial aid and maintenance of the facilities.
